The Tunnel

- impact on the continuity of learning for more than 40 crores young learners in India
- Only a handful of private schools could adopt online teaching methods.
- Their low-income private and government school counterparts, on the other hand, have completely shut down for not having access to E-learning solutions.

Harpreet Kaur has left the meeting

• economic and social stress.

DNEP and SDG

- If the 'new normal' becomes the norm, the policy will need to situate equity,
 - inclusion and
 - diversity in the new frame of things.

A one nation, one channel or one digital framework will not be able to translate the goal set by the DNEP (Draft National Education Policy) into action. Further, this will also create barriers to India achieving the Sustainable Development Goals (SDG), particularly SDG4 on quality education, which now ever more than before needs to be looked at
